# Admissions Advantage Roadmap

Attract the best performing students  
while maintaining fairness and standardisation  
of credit and prior learning recognition.

We make it work

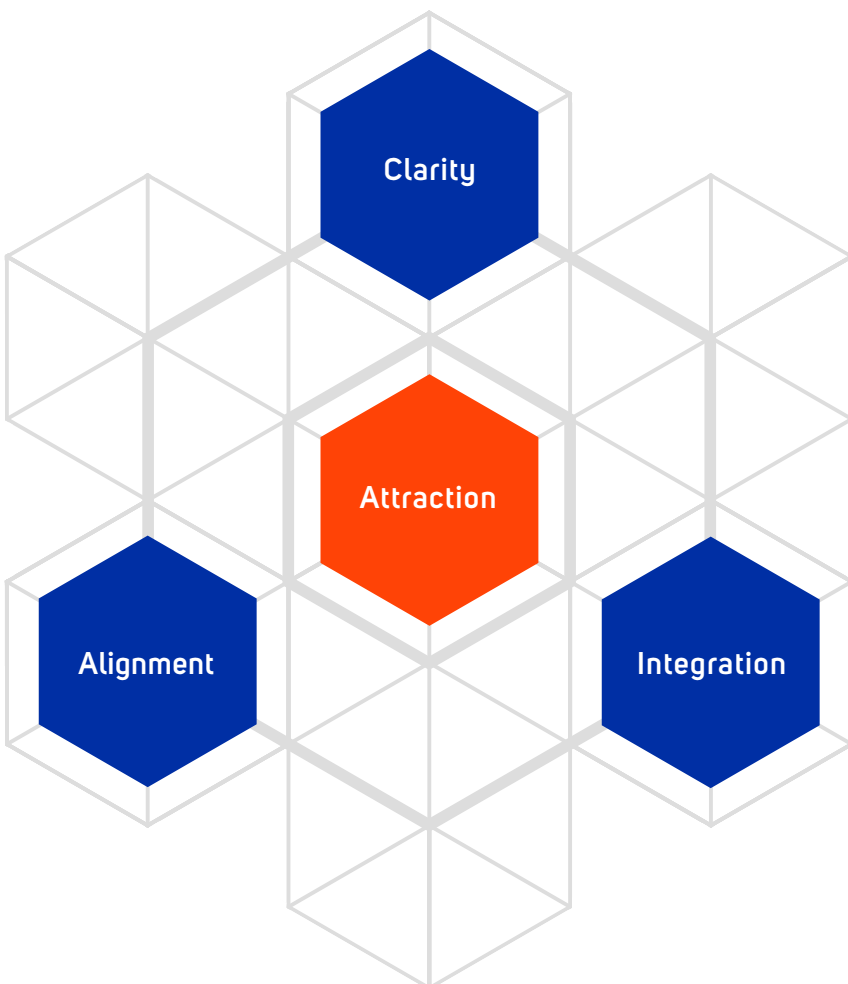

**RIVOR**  
Advisory

## Point them in the right direction

In today's rapidly evolving educational landscape, attracting top-tier students has become more critical than ever for higher education institutions. With Tertiary Admission Centres making monumental shifts in their admission procedures, our Admissions Advantage Roadmap can help you seize every opportunity to attract the best and brightest minds.

### Attract the best and brightest

Attracting the best and brightest minds entails not only identifying students with exceptional qualifications and potential for high performance but also streamlining the admissions process.

#### Clarity

We assess the existing admissions systems and course prerequisites to identify any shortcomings or misalignments with Tertiary Admission Centre expectations.

#### Attraction

We help you identify the type of students you wish to attract, including their preferences, qualifications, and potential for high performance.

#### Alignment

We identify discrepancies between your current admissions process and the requirements set by Tertiary Admission Centres, helping you align with the latest guidelines.

#### Integration

We explore opportunities for better integration with Tertiary Admission Centres, helping you adopt compatible technologies and systems to facilitate seamless data exchange.

## Align, Integrate, Attract

---

At Rivor, our team of dedicated education experts is ready to proactively assist your institution to adapt and align its admissions process with the changing requirements of Tertiary Admission Centres. We can help ensure you remain competitive and attract the best-performing students while maintaining fairness and standardisation in the admission process.

### Get the advantage

---

Through meticulous analysis and cutting-edge tools, we identify any gaps and misalignments in your current systems. Our experts work closely with your team to implement strategic integration with Tertiary Admission Centres, ensuring smooth data exchange and a seamless admissions experience. Imagine welcoming a diverse, dynamic, and high-performing student community to your institution. With "Academic Advantage," you can identify the most promising candidates quickly, attracting them before others even get a chance, aligning perfectly with your course targets, and standardising recognition of prior learning and credit to guarantee fairness.

Rivor Academic Advantage allows you to be informed about changes in the admissions landscape, understand student needs and expectations, and align your institutional processes with the requirements of Tertiary Admission Centres. By doing so, you can attract high-performing students and ensure a fair and efficient admissions process that meets your course enrolment targets.

#### Keep pace with changes

---

Tertiary Admission Centres are undergoing significant changes in their admissions procedures. We help you stay up-to-date with these changes to remain relevant and competitive in attracting top students.

#### Attract high-performing students

---

To secure the best students for their courses, educational institutions need to be able to quickly and reliably identify high-performing students as soon as they become available.

#### Standardise credit and recognition of prior learning

---

Implementing standardised procedures for recognising prior learning ensures fairness in the admission process. It also helps in attracting the right students in the right areas to meet the institution's course targets.
